DISCOUNTS. 2% and packing free when orders are paid in advance of shipment.

Spring statements due June 1st. Fall statements due Dec. 1st.

All orders are booked conditionally subject to adverse growing conditions, error in count or estimate, and prohibitory quarantine restrictions.

All quotations are for the trade only.

P. PUNGENS GLAUCA
Colorado Blue Spruce

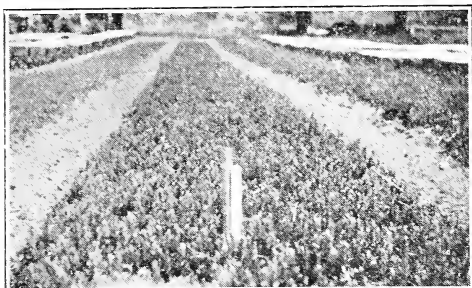

Photo taken June 25, 1927, showing 2 yr. seedling, Colorado Blue Spruce

We feel fortunate in being able to offer a strain of Colorado Blue Spruce far superior to the general run of this variety as offered by the trade. Our seedlings have been grown from seed collected from trees showing the silvery blue color, and come to us directly from the collectors in the Rocky Mt. district of Colorado. Our seed beds show a fine uniform silvery blue throughout.

P. Excelsa - Norway Spruce

We offer for Fall-Spring planting 400,000 Norway Spruce 2 yr. sd. grown from Swedish seed. North European seed of this variety assures compact, dense growing types, in comparison with the more open growth of Norway Spruce from Southern Europe.
